

## Services Offered

My over 25 years of experience in IT technology and office machines and computer repair has given me broad experience working in a variety of business settings.

Whether it's a home-based business with a single computer, a

small business with wireless connection, or a company with several networked computers, I can handle most maintenance service and repairs, including:

- Personal computers and networks
- Laser printer repairs and maintenance
- Wireless Networking and Printing installations
- Fax machines and scanners

## Great Scott's Pledge to You

## How we can help.

Your computer, work station and printers are critical parts of your business operation. When they are not functioning properly or at their peak, your business could grind to a halt.

## We get you running—fast!

Our standard response time is within four hours after receiving your call. We're also available nights and weekends for emergencies.

## Can't print?

No problem! We are certified on many HP, Samsung, Dell and Lexmark laser B&W and color printers.

## We offer maintenance plans, too!

Office machines experience a lot of wear. With our maintenance plan, we provide regular check-ups, upgrades, and preventive care, keeping your computer system running efficiently with less unexpected breakdowns.

## Educated, Trained, Certified.

Scott Gillentine has an Associates Degree in Electronics from Southwest State Technical College. He has attained A+ and Net+ computer certifications from Comp TIA which demonstrate his competency in computers and networking technology.

## Need a Website?

I can get you on the internet where you can be seen by your customers. I can build your site and host it for you.
